Free Digital Admission Testing with Chromebooks

Nivel A, provided technical support & tested w/ Chromebooks to show the benefits of the administration console,connecting devices to the network and kiosk mode feature allowing institutions to scale the exam application with high levels of security.

The challenge

BUAP has an enrollment of 105 thousand students, only in 2020, they registered near 71,000 applicants for Higher Education & 17,900 for High School. BUAP was ready for the exam application day, COVID-19 brought in a new challenge that they managed to overcome w/Chromebooks which adapts to different scenarios. Unused devices are lent to students for online learning.

The solution

Nivel A worked with the university to find the best solution to give the students the opportunity to take their admission test in a safe and secure environment using Google forms and the Kiosk setting available in Chromebooks.

The results

1) More than 10,000 applicants took the admission test 2) Lending Chromebooks to students for distance education during COVID-19 contingency 3) Improving quality and safety standards of admission processes 4) Eliminating the use of paper in the admission exam (more than 25 tons of paper)

> La creación del programa tecnológico brinda la posibilidad del préstamo de 6,000 equipos, dando igualdad de oportunidades en el proceso de enseñanza-aprendizaje a las y los alumnos.

About Benemérita Universidad Autónoma de Puebla

The Benemérita Universidad Autónoma de Puebla (BUAP), founded in 1578, eliminated 25 tons of paper from its admission process for Middle and Higher Education, with a free digital test on Chromebook devices using kiosk settings to increase and improve user attention and security standards to prevent plagiarism.
